

Vindikort

- Vindikort eru sjávrættandi uppgávur, soleiðis at næmingar kunnu sita og arbeiða sjálvstøðugt, uttan at hava tørv á hjálp frá lærara.

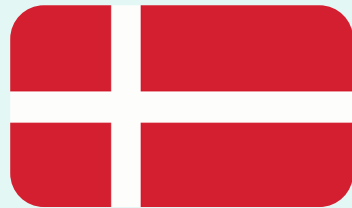

Soleiðis gert tú

- Printa vindikortini út. Um tað ber til, er gott at printa á tjúkt pappír. Klipp rundanum for-og baksíðuna á hvørjum vindikorti, og límar síðurnar saman. Síðan laminerar tú vindikortið og klippir aftur. Klipp varisliga fyri at fáa øll innvikini við. Hetta fer at hjálpa bandinum at liggja væl, tá ið uppgávan skal loysast.
- Ger eitt hol ovast við einum holara, saksi ella sker við einum knívi. Drag eitt band gjøgnum holið og bind knútar á báðar endar.

Hvussu loysir mann upgávuna?

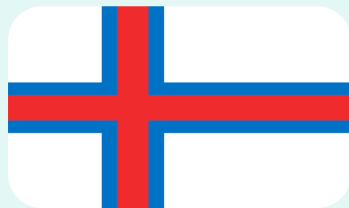

- Næmingurin loysir uppgávuna við at toga snórin frammanfyri frá einari mynd og afturum til tað orðið ið passar til. Síðan fer hann frammum til eina aðra mynd og afturum til rætta orðið. Hildið verður áfram inntil allar myndir eru paraðar við orð.
- Tá ið næmingurin er liðugur, vendir hann vindikortunum og sær síðan um bandið liggur omaná strikunum á baksíðuni. Ger tað tað, er uppgávan loyst á rættan hátt.
- Góðan lærihug :)
